7000 SERIES SINGLE REDUCTION RIGID

OVERVIEW

.....

AxleTech's new 7000 Series single reduction rear drive axles are designed for a wide range of off-highway, light to heavy-haul specialty trucks. Our 7000 Series single reduction drive axles are available in single and tandem configurations with axle weight ratings up to 30,000 lb (13.6 T) and 72,000 lb (32.6 T) respectively. Axles are available with drum or disc brake options, an overall axle ratio range of 2.85 to 6.83, and multiple track widths to meet vehicle specifications.
